

Hyejin Yoo

📍 Seoul, South Korea ✉️ hjin.u@snu.ac.kr **in** [uhjin](#) **🌐** [hyejinU](#)

Research Interests

Database Systems, Concurrency Control, OLTP Systems, Storage Systems

Education

Seoul National University

M.S. in Data Science (CGPA: 3.57/4.3)

Seoul, South Korea

Mar. 2025 – Present

Sungkyunkwan University

B.S. in Computer Science and Engineering (CGPA: 3.97/4.5)

Suwon, South South Korea

Mar. 2020 – Feb. 2025

- Academic Excellence Scholarship (Fall 2024)
- Sungkyun Software Scholarship (Full-tuition) (2020 – 2021)

Publications

Hyejin Yoo*, Sungjae Moon*, Jonghyeok Park, and Sang-won Lee, “RCC: Speculative Write Versioning with Redo Logs,” *arXiv:2607.19697*, 2026. (*: Equal contribution)

Hyejin Yoo, Sungjae Moon, Jonghyeok Park, Sang-won Lee, and Youngik Eom, “A Study of Transaction Blocking Time under Lock Contention,” *Proceedings of the Korea Software Congress (KSC)*, 2024.

Research experience

Seoul National University

Graduate Researcher, VLDB Lab (Advisor: Prof. Sang-won Lee)

Seoul, South Korea

Mar. 2025 – Present

- Designed RCC, a concurrency control scheme that repurposes redo logs as speculative write versions to pipeline update-conflicting transactions.
- Implemented RCC in MySQL 8.4 by extending their locking modules and transaction managers.

Sungkyunkwan University

Undergraduate Research Intern, VLDB Lab (Advisor: Prof. Sang-won Lee)

Suwon, South Korea

Jun. 2023 – Feb. 2025

- Quantified how write conflicts under lock contention dominate latency in OLTP workloads.

Work experience

Software Service Assistant (SSA)

Team Leader & Backend Developer

Sungkyunkwan Univ., South Korea

Feb. 2023 – Dec. 2024

- Led a development team to build 'KingoCoin', a campus reward system serving university students.

CodiMe Inc.

Co-founder & Backend Engineer

Seoul, South Korea

Aug. 2021 – Dec. 2022

- Co-founded and launched CodiMe, a generative AI-based virtual styling application.
- Delivered an Investor Relations pitch to international investors in Grenoble, France

Escare Inc.

Full Stack Developer Intern

Seoul, South Korea

May 2021 – Dec. 2021

- Developed a secure banking authentication prototype.

Teaching and Mentoring Experience

Teaching Assistant, Introduction to Computing, Seoul National Univ. *Spring 2026*

Teaching Assistant, Computer Programming for Engineers, Sungkyunkwan Univ. *Fall 2023*

Student Mentoring

- International Student Major Mentoring Program (Fall 2024), Sungkyun Tutoring (Fall 2024), Global Buddy Program (Spring 2024), KT Foundation Online Mentoring Program (Fall, Spring 2023)

Awards

Grand Prize, Uni-DTHON, Consortium of Six Major Universities in South Korea *Nov. 2022*

- Designed the backend and delivered the presentation as the team lead.

Grand Prize, AI Idea Contest, Sungkyunkwan Univ. *Jan. 2023*

- Awarded for the excellent business model developed for my co-founded startup, CodiMe.

Academic service

Research Session Chair, DASFAA 2026 *Apr. 2026*

- Chaired the “Data Mining and Knowledge Discovery” session at the International Conference on Database Systems for Advanced Applications.

International experience

AUA–Tsinghua SIGS Youth Leadership Program *Oct. 2026*
University Representative *Shenzhen, China*

- Selected as one of two students from Seoul National University for a program hosted by Tsinghua University under the Asian Universities Alliance.

Global Challenge Program *Aug. 2022*
Outreach Coordinator *Silicon Valley, USA*

- Visited UC Berkeley’s Sky Computing Lab and offices of NVIDIA, Google, and Oracle; conducted in-person interviews with researchers and industry professionals.

Global Capstone Design Program *Jan. 2023 – Feb. 2023*
Participant *Baltimore, USA*

- Collaborated with international peers and faculty at Johns Hopkins University.

Extracurricular experience

National Capstone Design Competition *Nov. 2023*
Student Evaluator *Seoul, South Korea*

- Evaluated the top 13 finalist projects out of 73 engineering colleges nationwide at the Engineering Education Festival

Student Council, College of Computing and Informatics *Nov. 2021 – Feb. 2024*
Volunteer *Suwon, South Korea*

- Organized in-person academic events and facilitated communication between students and faculty.
